

Security Committee

SECOM-D-289

1 November 1977

MEMORANDUM FOR: Executive Secretary, NFIB

FROM: [REDACTED]
Acting Chairman

SUBJECT: National Technical Threat Estimating Guides (U)

1. (S) This memorandum forwards the following two guides for the information of the Board:

25X1

These reports provide the detailed technical backup to the previously distributed report, National Technical Threat Estimates 1976-1981.

2. (S) The Guides are intended to provide the basic theoretical and factual foundations necessary to make sound technical estimates both for normal and unusual conditions. The estimating guides are expected to be used primarily by technical and engineering personnel in the conduct of detailed technical studies. These guides will also facilitate preparation of updated technical threat estimates as they become required.

3. (U) For additional copies, NFIB members should contact their representatives on the DCI Security Committee's Research and Development Subcommittee or [REDACTED].
